# **Neil Lane Engagement Rings & Jewelry Dominate The Emmy's**

Today I simply wished to perform a review on, who is actually amongst Hollywood's most decorated jewelers, Neil Lane engagement rings. He is one of my favorite high end jewelry designers for huge reasons. This Hollywood superstar jewelry designer is, and has been, sought out by countless Hollywood big shots and A-listers.

Just lately within the season ending of bachelorette, Blake Julian proposed to Holly Durst with this stunning platinum and diamond ring from [Neil Lane engagement rings](#) valued in excess of \$60,000! The ring in fact was a completely magnificent work of genius, as with every single one of Neil's creations, regardless of whether they are bridal jewelry or not.

The famed designer has over Twenty years of verified experience. His artistry is always looked for by those significant money earners who expend a lot of money for diamond jewelry. Without going into the \$50,000+ cost range, there is a quite recent series called Neil Lane Bridal, that was launched and is offered by Kay Jewelers. The product range is very gorgeous as you might visualize, at cheaper prices on the other hand. An additional huge chain jewelry shop that is promoting a number of the medium to lower end price points from Neil Lane is Zales Jewelers.

The name listing of Hollywood A-listers keeps growing on and on with regards to people that have already been moving in search of Neil Lane's work. Madonna, Elizabeth Taylor, Angelina Jolie, Gwyneth Paltrow, Sandra Bullock, Nicole Richie for example. The big shot number of names does not end there, and it grows on continuously further than the eye can see.

During 2009, after having won American Idol several years prior, Jennifer Hudson sang on the 2009 Super Bowl athletic event showing her magnificent Neil Lane engagement ring. She actually is engaged to none other than World Wrestling Federation's own David Otunga.

The Emmy's simply just flew by on September 18 and were quite pretty much rocked with diamonds from Neil Lane's masterpieces. Drew Barrymore showed up showing off a whole selection of jewels from the famous designer. Gwyneth Paltrow also at the Emmys wearing well over \$500,000 in Neil Lane diamond jewelry. Julie Bowen and Ty Burrell win the Emmy for their very own part in Modern Family. She is laced with in, you suspected it, Neil Lane's goods really worth minimum \$160,000. Nina Dubress of Vampire Diaries draped greater than \$218,000 of [Neil Lane jewelry](#).

Congrats for the recently wed star of Just Friends, Amy Stewart, who shows up with her arm sleeved into a wonderful platinum accessory, from Neil Lane jewelry, on her wedding day which in turn just lately went by.

You will find apparently simply no halting this artist in the previous Twenty years, checking out the present and into the future, his acceptance just is maintaining growth by extreme measures.
